Shikishi Boards are rice paper boards from Japan, which serve as a background for inspired arrangements of preserved leaves or flowers, often combined with Japanese brush strokes or beautiful fabrics. Available in a variety of interesting shapes, sizes and prices. Call for details and to discuss design ideas.

Beautiful Floral Creations that include flowers from your wedding bouquet or from other special occasions will sustain your memories. Mementos such as lace, a boutoniere, or your invitation or photograph can add a special touch to create a unique work of art that reflects your treasured moments. Choose one of these creations, personalized just for you:

Wedding Wreath — Your flowers, leaves and ferns, transformed into a romantic memento of your special day.

Shadow Box — Your flowers, carefully dried and artfully arranged in a 3-dimensional picture in a shadow-box frame.

Glass Dome — Your flowers, preserved and reconstructed into a bouquet, in a glass dome set on a mahogany base.

Pressed-Flower Picture — Preserved flowers, elegantly arranged on beautiful fabric or handmade paper. The finished piece can be framed to hang on the wall or transformed into a unique glass-topped tray. Size, shape, and price will vary according to complexity and your taste.

Price: \$200 should be sent with your flowers to cover cost of immediate preservation. Should you decide to use the preserved flowers in a floral creation, the cost of each creation then begins at \$300, determined by the process selected and time involved.

Shipping your flowers: For the most effective preservation, it is best to ship your bouquet overnight express within 24 hours after your wedding. Please call first to make arrangements.
